

Soumak Dutta

Front end Developer

✉ soumakkdutta@gmail.com ☎ +91 7001397322  [GitHub](#)  [LinkedIn](#)

Experienced React Developer with 3 years of hands-on experience in making robust web applications. Specialized in building projects, from in-house B2B order management solutions to dynamic e-commerce platforms for clients. Proficient in React, TypeScript, Next.js, Tailwind CSS, and various modern libraries.

WORK EXPERIENCE

Frontend Developer at Wit by Bit (2020 - 2024)

Decorum

- Contributed to the React and Material-UI codebase by actively engaging in maintenance and optimization tasks.
- Took the initiative to create a UI component library in Storybook, ensuring consistency and reusability across the application, resulting in a better development process.
- Developed and implemented reports and dashboard features, utilizing Chart.js to visualize complex data analytics effectively.
- Implemented and optimized data fetching mechanisms using React Query, enhancing application performance and data management efficiency.
- Worked closely with both designers and backend developers to successfully implement and release features.
- Have experience in building landing pages in Next.js. Also developed and maintained Markdown-based blogs for our team.

E-Register

- Integrated Tailwind CSS and shadcn/ui to enhance the user interface. The replacement of the old Bootstrap framework resulted in a more responsive, visually appealing, and performant user interface.
- Introduced Monorepo codebase with Turborepo, which enhanced scalability and maintainability, leading to significant improvements in development workflows.
- Experience in working with large forms within the application. Have worked with libraries like Formik, TanStack Form.
- Experience in React Table library, leveraging its functionalities to implement advanced tables within the application.

Nicholas

- Played a pivotal role in the development of Nicholas, a feature-rich ecommerce platform with intricate functionalities including guides, recipes, and inventory management.
- Implemented critical features such as order placement, cart management, and product search and filtering. Collaborated closely with backend developers to ensure seamless integration.
- Utilized Next.js and Tailwind CSS to create responsive and visually appealing user interfaces.
- Experience in collaborative teamwork, actively participating in team meetings and daily scrum sessions in a remote environment. Proficient in prioritizing tasks effectively to meet project deadlines.

PROJECTS

Phonedipo

- Developed an ecommerce platform using Next.js and Material-UI, for buying and selling mobile phones.
- Implemented features for buying, selling, and repairing phones, enhancing user engagement.
- Collaborated closely with the client, ensuring alignment with their vision and goals.
- Resulted in a successful and versatile ecommerce platform, catering to a wide customer base.
